

Three Crosses, Swansea

Landscape Strategy

Key

## **Soft Landscape**

Landscape planting will provide an overall positive impact on the biodiversity value of a site and the local area. Pollinator- friendly plants will be included in the landscape planting for insects.

Existing trees to be retained with Root Protection Area (RPA) shown as an orange dashed line

Existing vegetation to be removed

Proposed shrub planting including selected native species where possible

Proposed tree planting with diverse species with colourful foliage, seasonal interest, flowering and/or fruiting species

Proposed species rich grass with reduced mowing frequency away from pedestrian routes

Proposed wildflower/annual grassland areas to encourage pollinators, provide biodiversity and amenity

Proposed detention basin with species rich damp

Swales with shrub, perennial and grass species

Proposed native species hedgerow along site boundary

Proposed ornamental hedgerows

Proposed nature based play space

Refer to **L2** for detailed planting areas and rain garden planting details. Plant specifications are on drawings L3 and L4. Plant schedules are also on **L4**.
