Soft Landscape

Landscape planting will provide an overall positive impact on the biodiversity value of a site and the local area. Pollinator-friendly plants will be included in the landscape planting for insects.

- Existing trees to be retained with Root Protection Area (RPA) shown as an orange dashed line
- Existing vegetation to be removed
- Proposed shrub planting including selected native species where possible
- Proposed tree planting with diverse species with colourful foliage, seasonal interest, flowering and/or fruiting species
- Proposed species rich grass with reduced mowing frequency away from pedestrian routes
- Proposed wildflower/annual grassland areas to encourage pollinators, provide biodiversity and amenity
- Proposed detention basin with species rich damp grassland
- Swales with shrub, perennial and grass species
- Proposed native species hedgerow along site boundary
- Proposed ornamental hedgerows
- Proposed nature based play space

Refer to L1 for the landscape strategy. Refer to L2 for detailed planting areas and rain garden planting details. Plant specifications are on drawings L3 and L4. Plant schedules are also on L4.
