

## Nantycaws Solar Farm

### Landscape Proposals LA.100

#### Key

-  Existing trees and hedgerow to be retained. RPA shown in orange.
-  Proposed solar arrays.
-  Proposed access track.
-  Proposed native hedgerow planting along western boundary of the site to comprise holly (*Ilex aquifolium*), hazel (*Corylus avellana*), hawthorn (*Crataegus monogyna*), dogwood (*Cornus sanguinea*), field maple (*Acer campestre*), guelder rose (*Viburnum opulus*), honeysuckle (*Lonicera periclymenum*) and dog rose (*Rosa canina*).
-  Proposed species-rich grassland beneath the solar arrays to be managed towards a more species-rich grassland through late summer mowing with associated removal of arisings.
-  Proposed swale and detention basin to manage site run-off - to be sown with species-rich damp grassland using seed from a local supplier or Emorsgate Seeds EM8: Meadow Mixture for Wetlands.
